

Workshop Outcomes

As a result of the experiences in this workshop, participants will be able to:

- Install the GIST software on both a Mac and PC.
- Access the GIST Help resources to answer questions.
- Describe the various GIST interface components used to create and modify GIST documents
- Create GIST documents
- Save, store and retrieve GIST documents for later use
- Accessing and Using the Content Enhancement Online Library
- Downloading base templates from www.gistplan.com
- Be aware of what Professional Developers must know to lead GIST workshops in the field

GIST
